

0346 Series Pressure Fingers

The Semco 0346 Series Pressure fingers are installed in the top Lexan lid or push plate, and press down on the board under test.

Semco offers a number of different length pressure fingers made from both ESD and non-ESD materials.

Tapered or flat tip fingers are both available. Please contact factory for availability.

Custom length fingers are available upon request.

Part Number	Dimension "A"	Style
0346-01-T-E	.500"	ESD Tapered
0346-03-T	1.00"	Tapered
0346-03-T-E	1.00"	ESD Tapered
0346-04-F	1.25"	Flat
0346-05-F-E	1.50"	ESD Flat
0346-05-T	1.50"	Tapered
0346-07-F-E	2.00"	ESD Flat
0346-09-F	1.15"	Flat
0346-09-T	1.15"	Tapered
0346-09-T-E	1.15"	ESD Tapered
0346-11-F	1.135"	Flat
0346-12-F	1.115"	Flat
0346-12-F-E	1.115"	ESD Flat
0346-12-T	1.115"	Tapered
0346-12-T-E	1.115"	ESD Tapered
0346-13-F-E	1.30"	ESD Flat
0346-13-T	1.30"	Tapered

F = Flat
T = Tapered
E = ESD
