

SEMCO MACHINE CORPORATION

ASM SERIES 40 - CT

CAM/TRAC® TEST KITS

Semco's CT Series 40 CAM/TRAC® mechanical kits, utilizing the patented CAM mechanism¹, offer precision linear motion. The "Z" axis motion is ideal for larger point count mechanical test applications

The CT Series 40 features a hinged 3/8" FR4 probe board, tooling holes for precision alignment, removable sides, precision shafts and cam slide block assemblies, and a pan latch assembly.

1. US Patent Number: 5,550,481

Kit Sizes and Available Pan Sizes

3	4	Numbering Code Location			8	9	10
KIT SIZE		Description	Actual Size	Max UUT	Pan Style Available		
0	1	CT-101	8"x12"	5.5"x8.5"	2.5", 4.0"		
0	2	CT-101S	12"x8"	9.5"x4.5"	2.5", 4.0"		
0	3	CT-102	12"x16"	9"x12"	2.5", 4.0"		
0	4	CT-102S	16"x12"	13.5"x8.5"	2.5", 4.0", Slope		
0	5	CT-103	16"x20"	13.5"x16"	2.5", 4.0", 8.0"		
0	6	CT-103S	20"x16"	17.5"x12.5"	4.0", 8.0", Slope		
0	8	CT-104S	24"x20"	21.5"x16.5"	4.0", 8.0", Slope		

UHA, Latches, Stripper Plate & ESD

5	6	7	Numbering Code Location
U			Upper Head Assembly - No Pan
X			Pan Latches
X	T		Pan Latches & Stripper Plate
		E	ESD

Note:

* Choose Lexan or G10 Push Plate

** Choose 1/2" or 3/4" stroke - 3/4" not available with Draw Bar Option

Handle Extender available upon request

Available Options

11	12	13	14	15	No. Code Location
D					Draw Bar
	W				Microswitch
		L/G			Lexan/G10 Push Plate*
			K2		Stroke = .5" **
			K3		Stroke = .75" **
				R	Riser Blocks

Riser Block Sizes

R1 = .250"	R5 = .750"
R3 = .500"	R7 = 1.00"

Note: Call for Availability and Special Requirements
